

How do I make a product dependent on another product?

Last Modified on 07/10/2019 3:32 pm AEDT

There may be some products that can only be purchased if another product has been purchased. For example, you may have to purchase a state fee before you can purchase a club fee. These are called **Conditional Products**.

NOTE: you must create the main product first.

Select Products & Forms from the top menu, then select the Products tab.

If your product does not yet exist, click **Add New Product** and complete the wizard.

If your product exists, click on the name to open it and go to the **Display Rules** tab.

When you get to the Conditional Product section, click **Create Dependency**.

Conditional Product

To see this product, members will have to have at least one of the following products. You can add multiple to this list and indicate if prior payment is also required for each.

 Create Dependency

PRODUCT DEPENDS ON *

DESCRIPTION

MUST BE PAID FIRST BEFORE SHOWING THE PRODUCT?

No Product Relationships to Display

From the line that opens, click the magnifying glass icon to select the product that this one depends on.
