Organisations taking transactions online through GameDay have the ability to export a complete list of their Settlements into a CSV file that can be opened in Excel.

To export your settlement list:

1. In the left-hand menu, click **Finances > FINANCES**

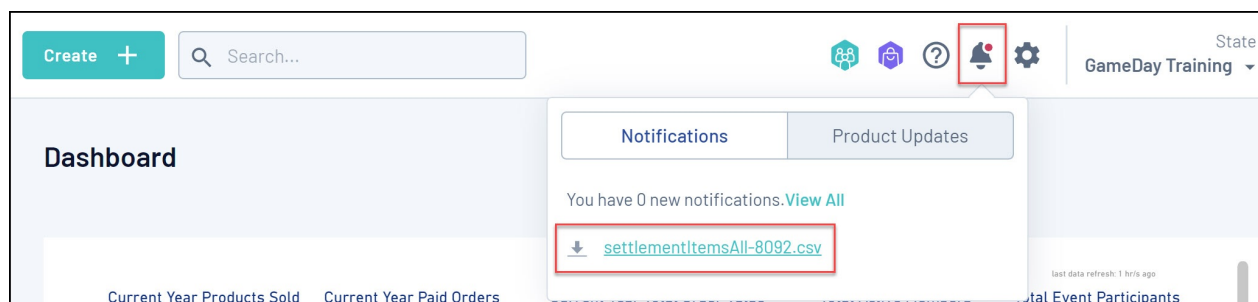

2. Click the **SETTLEMENTS** tab

3. At the bottom of the page, click **EXPORT CSV**

Your download will then appear in the **Notifications** widget at the top of the page:
