

Integrate your Mailchimp account with GameDay

Last Modified on 06/02/2024 3:47 pm AEDT

You can now integrate with Mailchimp, the #1 email marketing and automation software globally.

Many GameDay customers utilise Mailchimp to communicate with their members, create and send newsletters and manage marketing-related opt-ins. This integration will provide a seamless flow of contacts from GameDay to an existing Mailchimp account.

The product integration with Mailchimp will make it easy to bring member data from your organisations GameDay account into Mailchimp. By connecting your organisations Mailchimp and GameDay accounts, all members from your organisation will sync to a nominated audience list in Mailchimp with any new members or updated details continuing to sync on a daily basis.

BEFORE YOU START

- You will require **access to an active Mailchimp account**, login credentials and an audience already created in Mailchimp in order to continue with setting up the integration via *GameDay Marketplace*.
- For customers on a free Mailchimp plan, you can connect your organisations GameDay and Mailchimp accounts for free and remain on a free plan provided the number of contacts does not exceed the limit of your free plan (currently 500 contacts is the maximum)
- If the number of contacts in your GameDay account exceeds this limit, customers may need to change their plan with Mailchimp. To review available plans with Mailchimp - [click here](#)

A contact is considered to be a member with a unique email. In GameDay members may have multiple family members registered with the same email address so only the first listed contact will be synced across as Mailchimp only permits a single email to be listed - so where possible, we encourage all members to have a unique email address

The data synced across to Mailchimp includes:

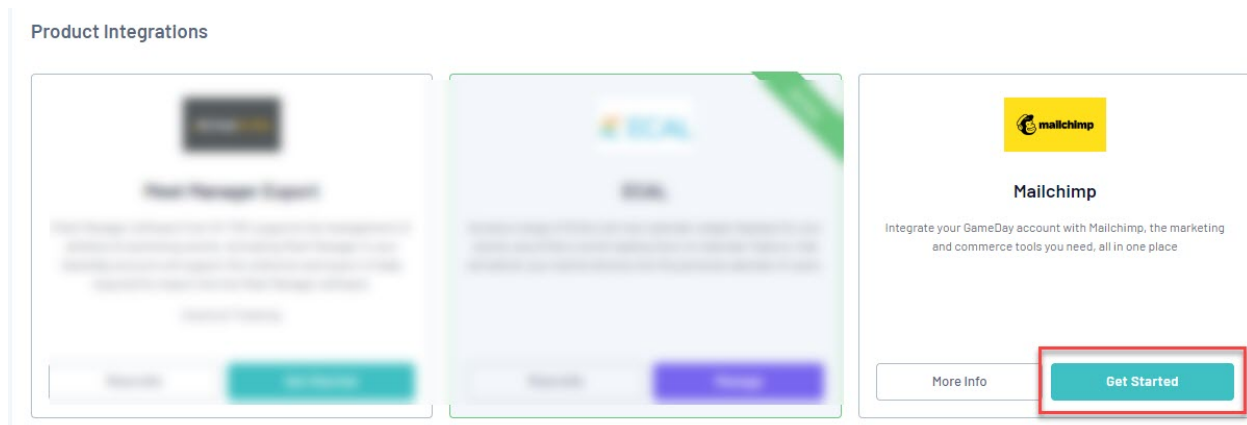

- **Profile Information:** Email, Name, DOB, Postcode, City/Town
- **Tags:** Season, Member Type & Product

GETTING SET UP WITH MAILCHIMP

1. Log into your organisations database.
2. Click on the GameDay Marketplace icon.

3. Scroll down to Product Integrations and select Get Started against **MAILCHIMP**.

4. Read the important information related to the syncing of contacts between Mailchimp and GameDay, then select **the checkbox** to confirm you give permission for GameDay to access this information. Click **ACTIVATE**.

GameDay Events x Mailchimp Integration

Getting Started

Our API integration with Mailchimp makes it easy to bring member data from your organisations GameDay account into Mailchimp. By connecting your Mailchimp account to your GameDay account, all members from your organisation will sync to a nominated audience list in Mailchimp with any new members or updated details continuing to sync daily. You will require an active Mailchimp account, login credentials and an audience already created in Mailchimp in order to continue with setting up this integration. To start the data sharing process please provide your consent by ticking the box below. Once you confirm your consent you will be asked to login to your Mailchimp account and select an audience in order to start the setup process.

For free Mailchimp plans, this includes up to 2,000 contacts. If the number of contacts in your GameDay account exceeds 2,000, only the first 2,000 records will sync. If you wish to upgrade or review your plan with Mailchimp - Click [here](#)

6. Click **ALLOW** to give permission for GameDay share data from your Mailchimp account.
7. Select the **AUDIENCE LIST** and the **CONTACTS** you want to sync across from your Mailchimp account.
8. Click the checkbox to grant permission for GameDay to share this data, then click **ACTIVATE**.

GameDay Events x Mailchimp Integration ×

For free Mailchimp plans, this includes a limited number of contacts (a contact is considered to be a member with a unique email). If the number of contacts in your GameDay account exceeds this limit, you may need to change your plan with Mailchimp. To review available plans with Mailchimp - [Click here](#)
