

How do I gain access to the formal URL?

Last Modified on 07/10/2019 3:28 pm AEDT

Open the Registration Form.

Click the Copy Form Link button.

A screenshot of a web application interface for editing a form. The title is 'National Registration Form'. In the top right corner, there are three buttons: 'Copy Form Link' (highlighted with a red box), 'Save', and 'Cancel'. Below the title, there is a status indicator 'Status: Active' and 'Defined by: My First Club'. A navigation bar contains six items: 'Settings' (selected), 'Products', 'Questions & Layout', 'Messaging & Notifications', 'Activate & Publish', and 'Distribute'. The main content area is titled 'Basic Settings' and contains two text input fields. The first is labeled 'Internal Form Name' with a red asterisk, and the second is labeled 'Title of Form (as displayed)' with a red asterisk. Both fields contain the text 'National Registration Form'. Below these fields is a checkbox labeled 'Prevent levels below from adding new custom questions to this form', which is currently unchecked. A 'Help' button is located in the bottom right corner of the form area.

You can paste this link onto a button on your website.
