

## Changes to the way Menus work

Last Modified on 07/10/2019 12:05 pm AEDT

Previously, you would select the module you want to see (i.e. Memberships) by clicking on it. Then, the Memberships page would display and you could click on another sub-menu.

To reduce the number of times you have to click, you can now **hover** your mouse over the module you want to see and the menu will open in a list. Select the option from the list.

The screenshot shows the GAMEDAY web interface. At the top, there is a dark blue navigation bar with a star icon on the left and the following menu items: MY ORGANISATION, MEMBERSHIPS (highlighted with a red box), PRODUCTS & FORMS, COMPETITIONS, and REPORTS. Below the navigation bar, the main content area is titled 'Members'. On the left side, there is a 'Members List' section with a '+ Add New Member' button. Below this, there is a table with columns: PHOTO, NAME, LAST NAME, GENDER, BIRTHDATE, and ADDRESS. A sub-menu is open over the 'MEMBERSHIPS' menu item, listing the following options: Dashboard, Members, Products & Forms, Approve Applications, Clearances, and More.

**NOTE:** if you click on the module name, you will be taken to the landing page for the module.
