

## How do I view a registration form that has been shared with me?

You may have several forms shared with you by other organisations. If you just want to look at the form, not use it, you can do that from the Shared Forms page.

From **Products & Forms**, select the **Forms** tab.

Under **Shared Forms**, go to the end of the line of the form you want to view. Click on the drop down arrow and select **View Form**.

The table shows a list of shared forms. Each row has a 'USE THIS FORM' button at the end. The 'Testing' row's button is highlighted with a red box, and a 'View Form' link is visible below it.

The form will open for you to view. You will not be able to make any changes to it. If you need to use a form, see
