GAMEDAY

Release Notes: 05 September 2018

Last Modified on 19/09/2018 6:11 pm AEST

In this release we:

- Released the new members to teams page, giving admins a single page to manage their members (and their associated characteristics) in teams, competitions and games

New Features:

Competitions > Teams:

- There is a new Members to Teams page
- You can manage player characteristics via the Members to Teams page when adding players to fixtures
- You can filter the list of members from which you can select players
- You can add number and positions when you add members to a team

The following support articles are available:

- How do I add members to a team?
- How do I add members to a fixture?
- How do I assign player characteristics?
