## Release Notes: 19 September 2018

Last Modified on 20/09/2018 9:57 am AEST

### In this release we;

- Released the new members to teams page, giving admins a single page to manage their members (and their associated characteristics) in teams, competitions and games
- Various UI enhancements and defect fixes related to results entry, rego forms, member types and venues

The following items have been released:

### New Features:

#### Competitions > Teams:

- There is a new look page to add members to teams [\[View Support Article\]](#)
- Assign player characteristics [\[View Support Article\]](#)
- Add Team Staff to a team [\[View Support Article\]](#)

### Resolved Issues:

#### My Organisation:

- Renamed **Player** to **Participant** in settings table

#### Venues:

- Automatically claim venues when claiming playing surfaces, facilities etc.
