

# GAMEDAY

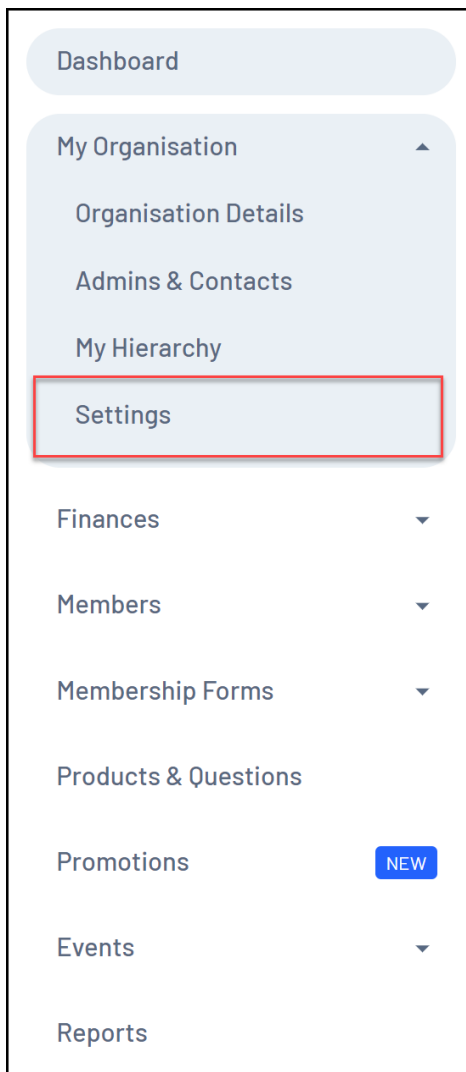

## Create Seasons

Last Modified on 26/11/2024 12:05 pm AEDT

GameDay administrators have the ability to create **Seasons** from scratch, which can then be linked to age groups and products to define active membership periods, product availability dates, and can be used as report filters among other benefits.

To create a new Season:

1. In the left-hand menu, open the **My Organisation** menu and click **SETTINGS**

2. Click **CREATE SEASON**

## Settings

Seasons   Member Types   ID Management NEW

Seasons   Age Groups

**Create Season**   Select organisation ▼   Active ▼   🔍 Type to search   ⚙️

3. Enter the **Season Name** and **Start/End Dates**, then click **CREATE**

### Create Season ×

Name \*

---

Season Start Date \*

---

Season End Date \*

---

You will then see a list of any Seasons you have created in your GameDay database
