

How do I define the membership dates of a product?

Last Modified on 15/01/2024 10:24 am AEDT

When creating a product in GameDay, users can define the period for which membership will be active when a member purchases the product.

To configure the Membership Dates of a product:

1. In the left-hand menu, click **PRODUCTS & QUESTIONS**

2. **EDIT** the relevant product

Products & Questions [Help](#)

Products | Product Attributes | Questions

[Create New Product](#) | All Product Types | Active |

Product Name	Product Type	Product Sub Type	Price	Payment	Owner	Status	Action(s)
Junior Membership Fee 2023	Membership	N/A	\$50.00 AUD SALE	Payment Gateway or Manually set Product as Paid	GameDay Training	Active	Edit

3. Scroll down to the **PRODUCT EFFECTIVE DATE** and **PRODUCT END DATE** fields

Note: If you're creating a new product from scratch, these fields will be referred to as **Membership Starts From** and **Membership Ends From**

Payment Option *	Payment Gateway or Manually set Product as Paid	
Available From	1 January 2023 (AEDT)	
Available To	31 December 2023 (AEDT)	
Status *	Active	
Allow users to purchase a product multiple times *	<input checked="" type="radio"/> No <input type="radio"/> Yes	
Price *	AUD \$ 50	<input checked="" type="checkbox"/> GST is included in the product price
Product Effective Date *	Specific Start Date	01/01/2023 (AEDT)
Product End Date *	Specific End Date	31/12/2023 (AEDT)
Defined By	GameDay Training	

Product Effective Dates allow you to determine the beginning of the product's membership period by selecting one of the options below:

- **Specific Start Date:** Enter the specific date on which you would like this product to start the membership period for the member.
- **Registration Date:** Base the start date of the membership period for the member on the date that they complete the registration.
- **Season Start Date:** Start the membership period based on the start date of a particular [season](#) in your database. Once a member purchases this product, they will be active as soon as the season starts.

Note: If the effective date of the product is in the future at the time it is purchased, the member will appear with a **Pending Active** membership until the effective date of that product, at which point the member type and product will become active

Product End Dates allow you to determine the lapse of the product's membership period by selecting one of the options below:

- **Specific End Date:** Enter the specific date on which you would like this product's membership period to lapse
- **Specific Days After Registration:** Select how many days after a member has registered, the membership period will expire. For example, if you want the membership to last a full year from the point of the member's registration, you can enter 365 in this field.
- **Season End Date:** End the membership period based on the end date of a particular [season](#) in your database. Once a member purchases this product, they will be active as soon as the season ends.
- **Period of Time:** Configure the membership period to lapse after a specific period of time from the effective date. Choose from a Week, a Fortnight, a Month, a Quarter, a Half-year, or a Year
