How do I make questions available to only certain members?

Last Modified on 23/01/2024 2:09 pm AEDT

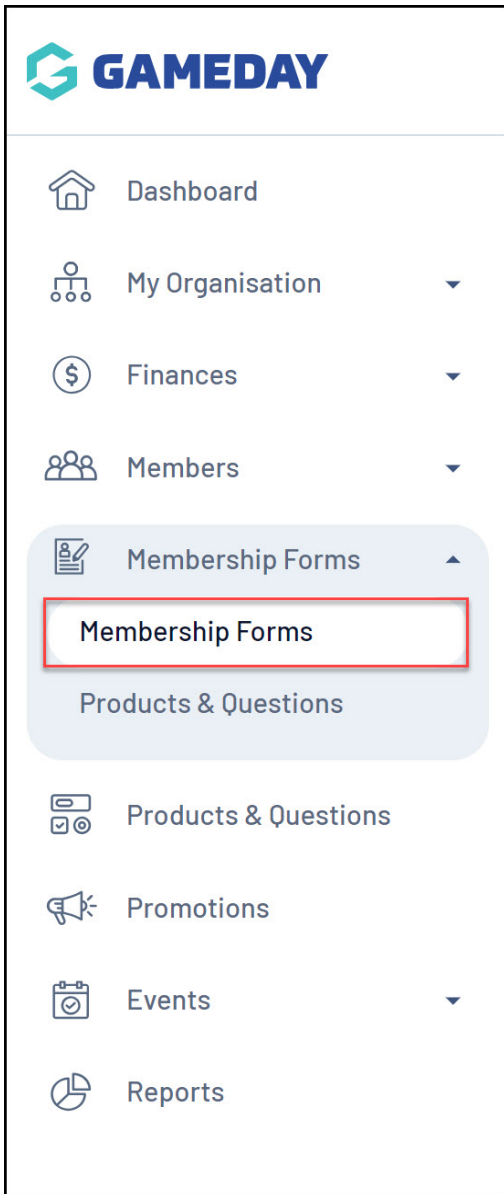

Some questions on registration forms are only relevant to certain members. For example, you may only want a question to be displayed to individuals of a certain gender, age, and/or member type.

Adding display conditions to questions can be done from within the registration form builder.

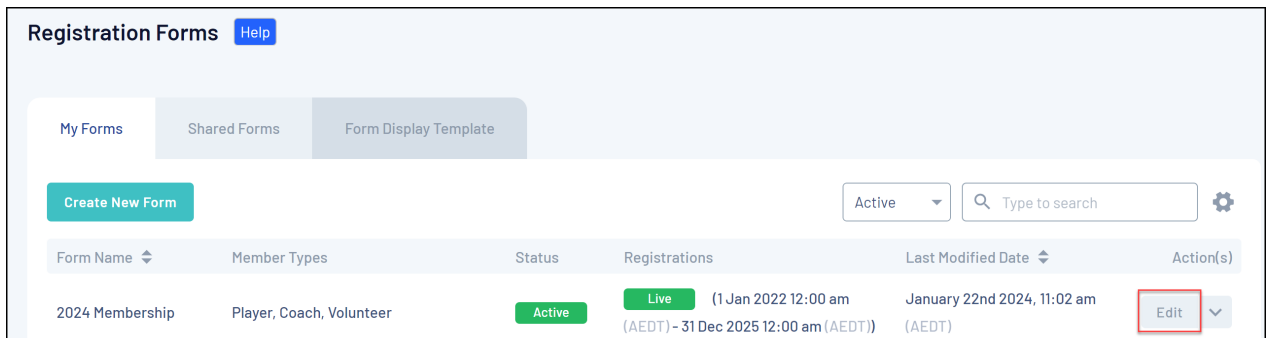

Note: The guide below shows this process being applied to a Membership Form, however the same process is available when building an event

To apply a conditional display rule to a question on a Membership Form:

1. In the left-hand menu, click **Membership Forms > MEMBERSHIP FORMS**

2. Click **EDIT** next to the relevant form

3. Click the **QUESTIONS & LAYOUT** tab
