Event Dashboard Report

Last Modified on 07/12/2023 10:23 am AEDT

If you are running Events through your GameDay database, you can get quick access to key event data through the Event Dashboard report.

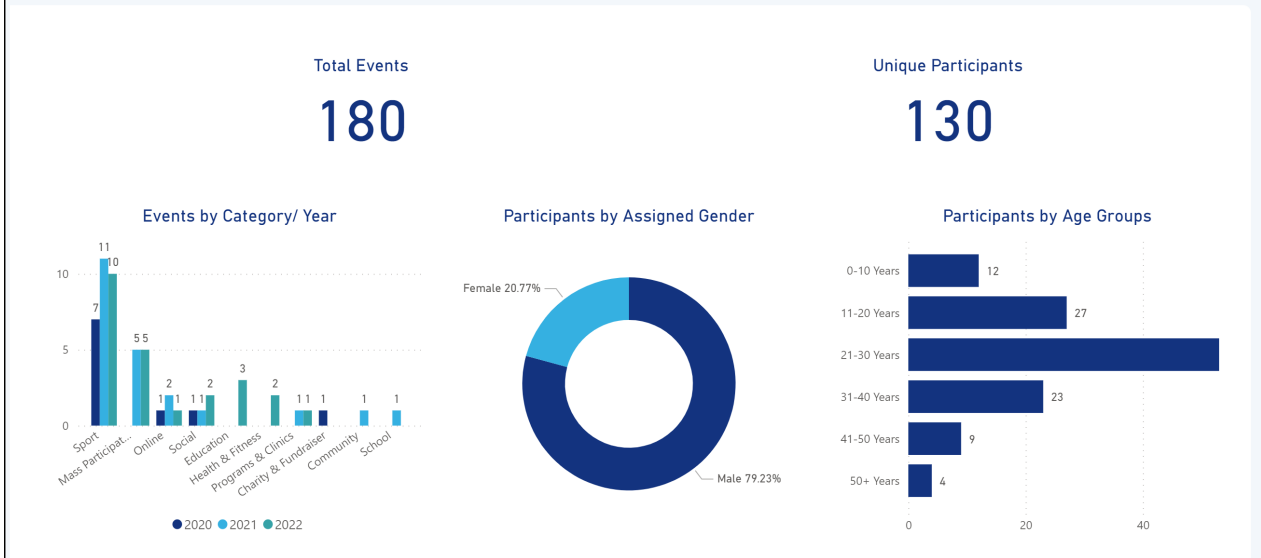

To access the **Event Dashboard** report

1. In the left-hand menu, click **Events > DASHBOARD**

The **Events Dashboard** offers a number of key metrics related to your events as shown below:

Event Dashboard

Total Events = The total number of Events currently set up in your GameDay database

Unique Participants = The total number of participants that have registered across all Events

Events by Category/Year = A breakdown of the number of Events created within each Category across each year of your GameDay usage

Participants by Assigned Gender = A breakdown of the total participants by Assigned Gender

Participants by Age Groups = A breakdown of the total participants by Age Group
