

Adding Free Shipping for Specific Product(s) Only

Last Modified on 05/10/2020 10:15 am AEDT

STEP 1 - Login to your BiogCommerce Dashboard

STEP 2 - Click on Products from the Left hand menu

STEP 3 - Click on the product you want to EDIT and offer free shipping for

STEP 4 - Scroll down to SHIPPING >> DIMENSIONS & WEIGHT then CHECK on the "FREE SHIPPING" box and make sure the price is zero

A screenshot of the BiogCommerce dashboard's product editing interface. On the left is a vertical sidebar menu with categories: PRODUCT INFORMATION, PRODUCT OPTIONS, STOREFRONT, FULFILLMENT, and SEO & SHARING. The 'FULFILLMENT' category is circled in blue, and 'Dimensions & Weight' is highlighted with a blue bar. The main content area shows the 'Shipping Details' section. It includes a 'Fixed Shipping Price' input field containing '\$ 0', with a blue arrow pointing to it. To the right of this field is a 'Free Shipping' checkbox, which is also circled in blue. Below the shipping details is the 'Purchasability' section, which has three radio button options: 'This product can be purchased in my online store' (selected), 'This product is coming soon but I want to take pre-orders', and 'This product cannot be purchased in my online store'. At the bottom of the purchasability section are two input fields for 'Minimum Purchase Quantity' and 'Maximum Purchase Quantity'.

On the front end, the customer will be offered FREE SHIPPING in the 3 checkout options.

My billing address is the same as my shipping address.

Shipping Method

<input type="radio"/> Pickup at Club	\$0.00
<input checked="" type="radio"/> Free Shipping	\$0.00

Order Comments

NOTE: IF other products are added to the cart and they don't have the free shipping box checked, then the free shipping option won't be available.
