

How do I download the GameDay App to manage my events?

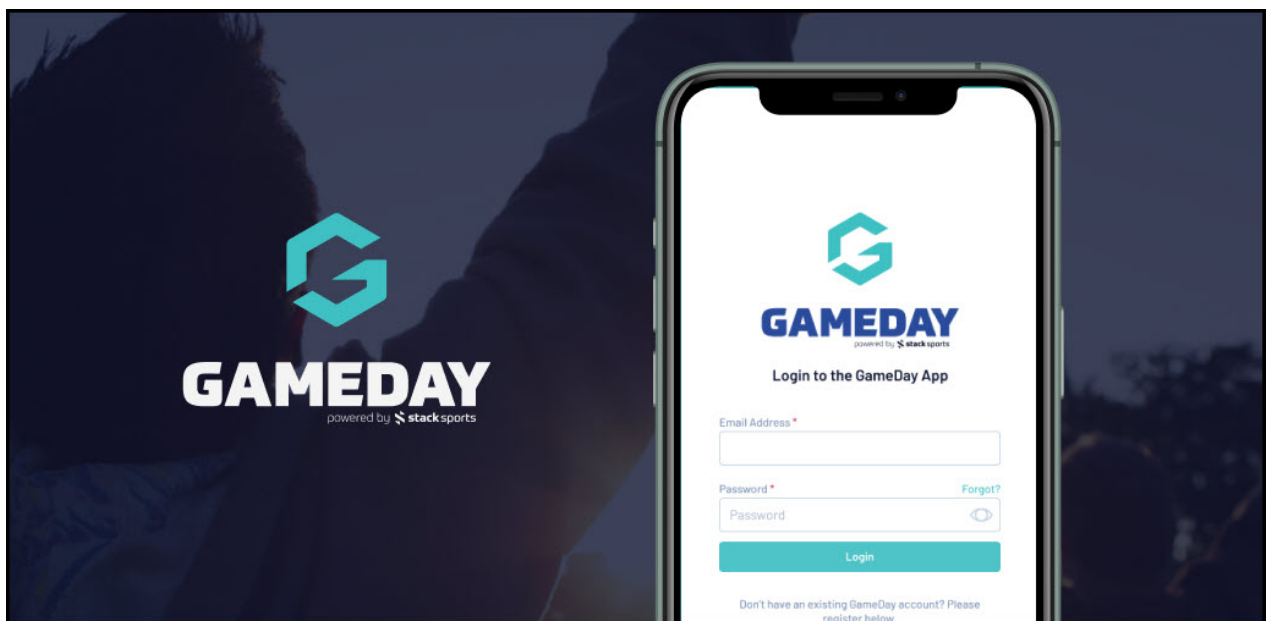

Last Modified on 31/10/2023 2:47 pm AEDT

For event managers and participants alike, the GameDay Mobile App is a useful tool for ensuring a smooth and well-connected end-to-end event journey, from the point of registration to participation.

For event participants, the GameDay Mobile App automatically stores your event ticket and QR code, allowing you to quickly and easily access this information for digital entry into the event.

For event managers, the GameDay Mobile App can be used to manage participant lists and has an in-built QR scanner, allowing you to scan QR codes and track attendance details using your mobile device on the day.
