

## UI/UX Update to GameDay

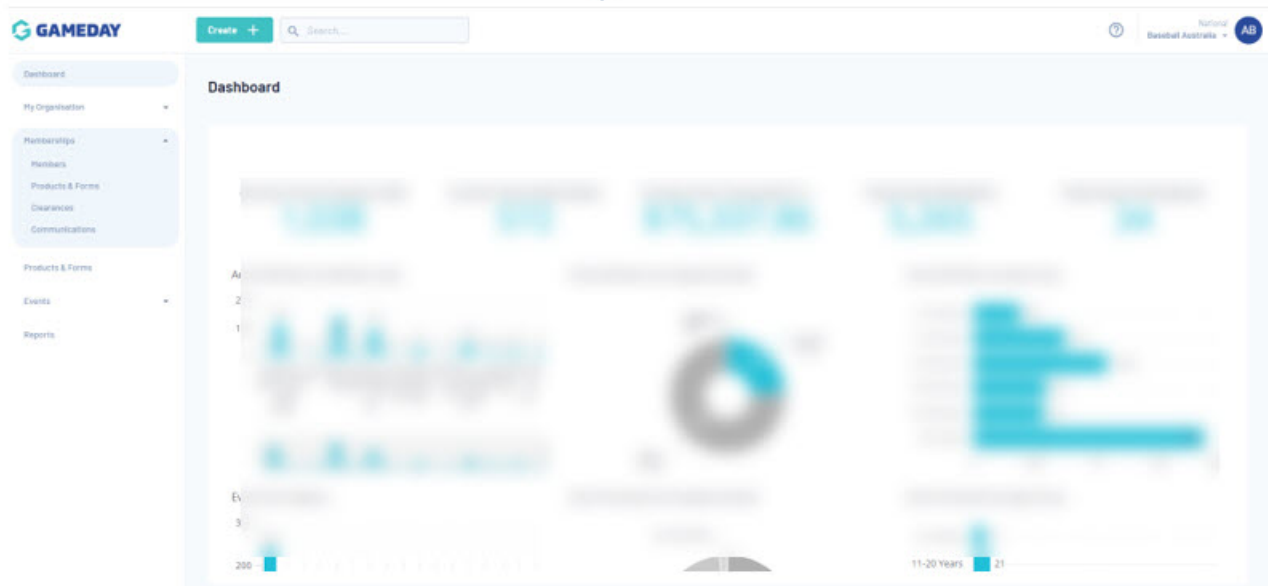

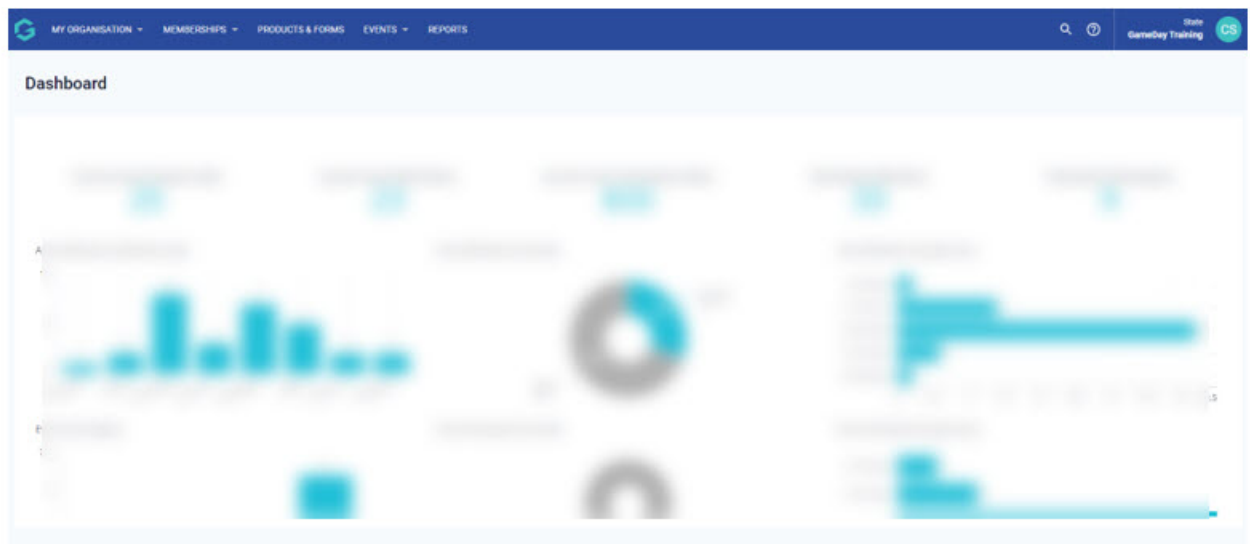

Last Modified on 14/04/2021 11:08 am AEST

GameDay Membership & Events solution has recently undertaken a refresh introducing a new look user interface (UI) and enhanced user experience (UX).

Below is what the platform looked before these changes came into play and how they look now as well as new feature enhancements we have added in. The overall functionality of the system remains the same - with a few new functionality features. The update includes improved navigation, a colour refresh and a couple of layout changes.

### HOME DASHBOARD

- Moving the main navigation menu to the left panel which can expand and close. To see how to navigate this please click [here](#).
- Direct access from the dashboard to create new forms, products, events, questions and more.
- Colour changes incorporates our new GameDay brand, look and feel.

## PRODUCTS/FORMS/FINANCES/MEMBER DETAILS

- Clearer color coding for status' of products, forms (membership and events) and finances.
