

How do I create a Product Attribute?

Last Modified on 09/04/2024 4:12 pm AEST

GameDay administrators using Add-on Products can add custom **Product Attributes** to these products to give users a list of selections within the product. For example, if a club wants to offer a T-Shirt as an Add-on Product to their Membership Form, they can add Product Attributes to that product to allow members to select a specific Size or Colour

To create a new Product Attribute:

1. In the left-hand menu, click **PRODUCTS & QUESTIONS**

2. Click on the **PRODUCT ATTRIBUTES** tab

You may see that there are default attributes listed, size and colour. These are available to use on Add-on Products if you see fit.

3. Click **CREATE PRODUCT ATTRIBUTE**

Products & Questions ?

Products **Product Attributes** Questions

Create Product Attribute 🔍 Type to search ⚙️

Product Attribute Name	Product Attribute Items	Action(s)
Colour (Default)	Black, White, Red, Green, Yellow, Blue, Pink, Grey, Brown, Orange, Purple, Maroon, Teal	Edit
Size (Default)	XXS, XS, S, M, L, XL, XXL, XXXL	Edit

Show 5
 Showing rows 1-2 of 2

|< < **1** > >|

4. Enter the relevant information, including:

- **Product Attribute Name**
- **Attribute Items:** These are the selections you want to offer members to make when purchasing a product with this attribute

Click **CREATE**

Create Product Attribute ×
