

How do I create an Event Entry event?

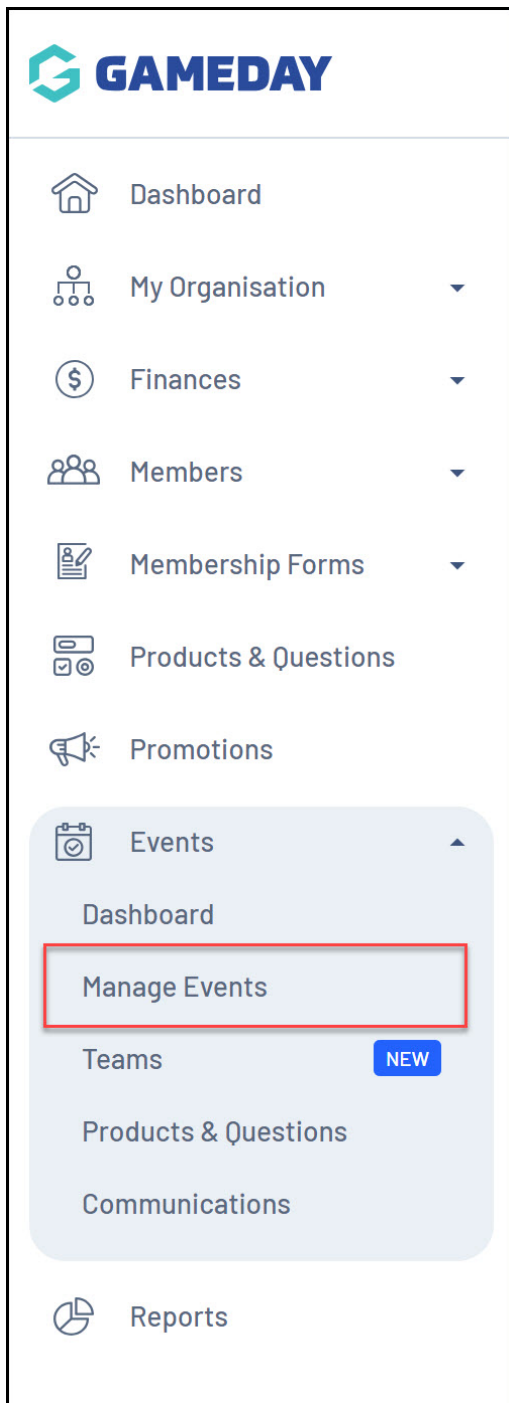

29/09/2025 2:07 pm AEST

Event Entry Events are events in which each entrant can enter into an event by registering and/or paying a fee.

Creating an Event

To create a new Event Entry Event:

1. Open the Events menu, then click **MANAGE EVENTS**.

2. Click **CREATE NEW EVENT**.

Event Details

4. Enter the initial event details including:

- **Event Name**

- **Event Type:** To ensure your event enables ticketing features, keep the **EVENT ENTRY** option selected.
- **Use Sub-Events:** Enable this option if you want to further categorise entry into the event by creating Sub Events. Click [here](#) for a step-by-step guide on creating an event with Sub Events.
- **Allow Team Registrations:** Select this option if you want to create a team-based event. Click [here](#) for more information on Team Events
- **Event Timezone**
- **Event Start Date/Time**
- **Event End Date/Time**

Note: Selecting the **All Day Event** option does not require Event Start/End Times

In this example, we will *not* enable Sub-Events or Team Registrations

Click **SAVE** once you're ready to proceed.

- **Total Product Limit:** Enter the maximum number of products/orders that you have available to be sold as part of this event. This represents the total number of orders that you want to be able to process through this event. If you don't want to apply a cap on the number of products sold, tick the No Limit box.
- **Gender:** Allows you to open the event to any gender, or restrict registrations to either Male or Female participants
- **Event Category:** Add a general categorisation for the event which can be used in reports

Note: If your event does not have a fixed address, you can select one of the following options as the Event Category:

- Multi-Location
- Online/Virtual

Both of these options will bypass the need to enter an address and map location for your event

- **Show this event to all ages:** By selecting No, you can apply a minimum and maximum age for incoming registrations to the event

Contact Email *

ken@email.com

Website Address *

www.mygameday.app

- **Venue Name**
- **Event Address:** Adding an Event Address generates a map pin which then shows on your event landing page to ensure participants know where the event is being held

Venue Name

GameDay HQ

Event Address *

165 Cremorne Street, Cremorne, 3121, Victoria, Australia

- **Sponsors:** Upload Sponsor Logos that will appear on your event landing page

Sponsors

Recommended maximum image size is 320px x 180px. png is preferred and maximum of 18 sponsor logos are recommended.

Drop your document here or [choose file\(s\)](#) to upload

- **Restrict this event to members only within this organisation:** If Yes is chosen, this event will only be available to participants who already have a member record in your GameDay database, and will prompt them to use their GameDay account credentials to login to the event form
- **Allow guest registration:** Allows you to open the event to guest registrations, which allows participants to register without creating a GameDay account

Once you've completed all the mandatory information, click **SAVE**.

Add Existing Event Products to Form

Create New Event Product

Create Product Group

Here you can either add a new product from scratch, or add one of your existing products to the event.

Note: Only products with the **Event** Product Type will be available to add to an Event

2. Add a new product to your event:

2a. Click on **CREATE NEW EVENT PRODUCT**

The screenshot shows the 'GameDay Awards Night' event page. At the top, there is a 'Back' button and a 'View Event' button. Below the event title, there is an 'Active' status indicator. A horizontal navigation bar contains five tabs: '1 Event Details', '2 Event Products & Groups' (which is selected), '3 Add-on Products', '4 Bundle Discounts', and '5 Questions & Layout'. Below the navigation bar, there are three buttons: 'Add Existing Event Products to Form', 'Create New Event Product' (highlighted with a red box), and 'Create Product Group'.

2b. On the Basic Settings page of the Product creator, you can apply the following settings and information:

- **Product Sub Type:** Choose the **Event Entry** option
- **Product Name:** The name of the product as displayed to the public on your event landing page and form
- **Description:** Provide an optional description of the product to display on event forms
- **Assign Event Participant IDs:** Select this option if you want each individual entrant to be assigned a unique ID. Click [here](#) for more information on defining Event Participant ID rules
- **Use Member ID for Event Participant ID:** Allows you to choose an existing [Member ID rule](#) to automatically allocate unique IDs for event entrants
- **Event Participant ID Rule:** Select the relevant Event Participant ID rule

2c. Display Rules & Review

Display Rules allow you to configure your Product to only display on registration forms if a member meets a certain set of characteristics.

- **Only show to Member Type(s):** Select one or more Member Types here to ensure the Product only appears on registration if the registrant has selected a particular Member Type on the front page of the registration form
- **Only show to Gender:** Select a Gender option to ensure the Product only shows to a specific Gender selected by the registrant on the front page of the registration form

Display Rules

Only show to member type(s)
Please select
☒ All Member Types

Only show to gender
All Male Female

NOTE: Gender display rules are based on the **Assigned Gender at Birth** field, not the Gender Identity field

Show this product to all ages?

Please select a minimum and/or maximum age for participants

Minimum age Maximum age (One of these can be left blank)

on

Conditional Product

To see this product, member will have at least one of the following products. You can add multiple to this list and indicate if prior payment is also required for each.

Make dependent on another product?

- **Show this Product to all ages?:** If No is selected here, you can apply an age range (as at a specific date) to ensure that the Product only displays to members of a certain age. This is automatically calculated based on the date of birth entered by each registrant on the front page of the registration form
- **Make dependent on another Product?:** If Yes is selected here, apply a Conditional Product to ensure that your new Product only displays if the member is purchasing - or has already purchased - the Conditional Product. Click [here](#) for more information on Conditional Products

Once you have applied your Display Rules, click **CONTINUE**.

2d. On the following page, review the final details of your Product, then click **CONFIRM AND SAVE**. This product will then automatically be applied to your event form.

2. In the **Form Status** section, you can set your event live by changing the status to **ACTIVE** and applying **Form Activation and Expiry Dates**

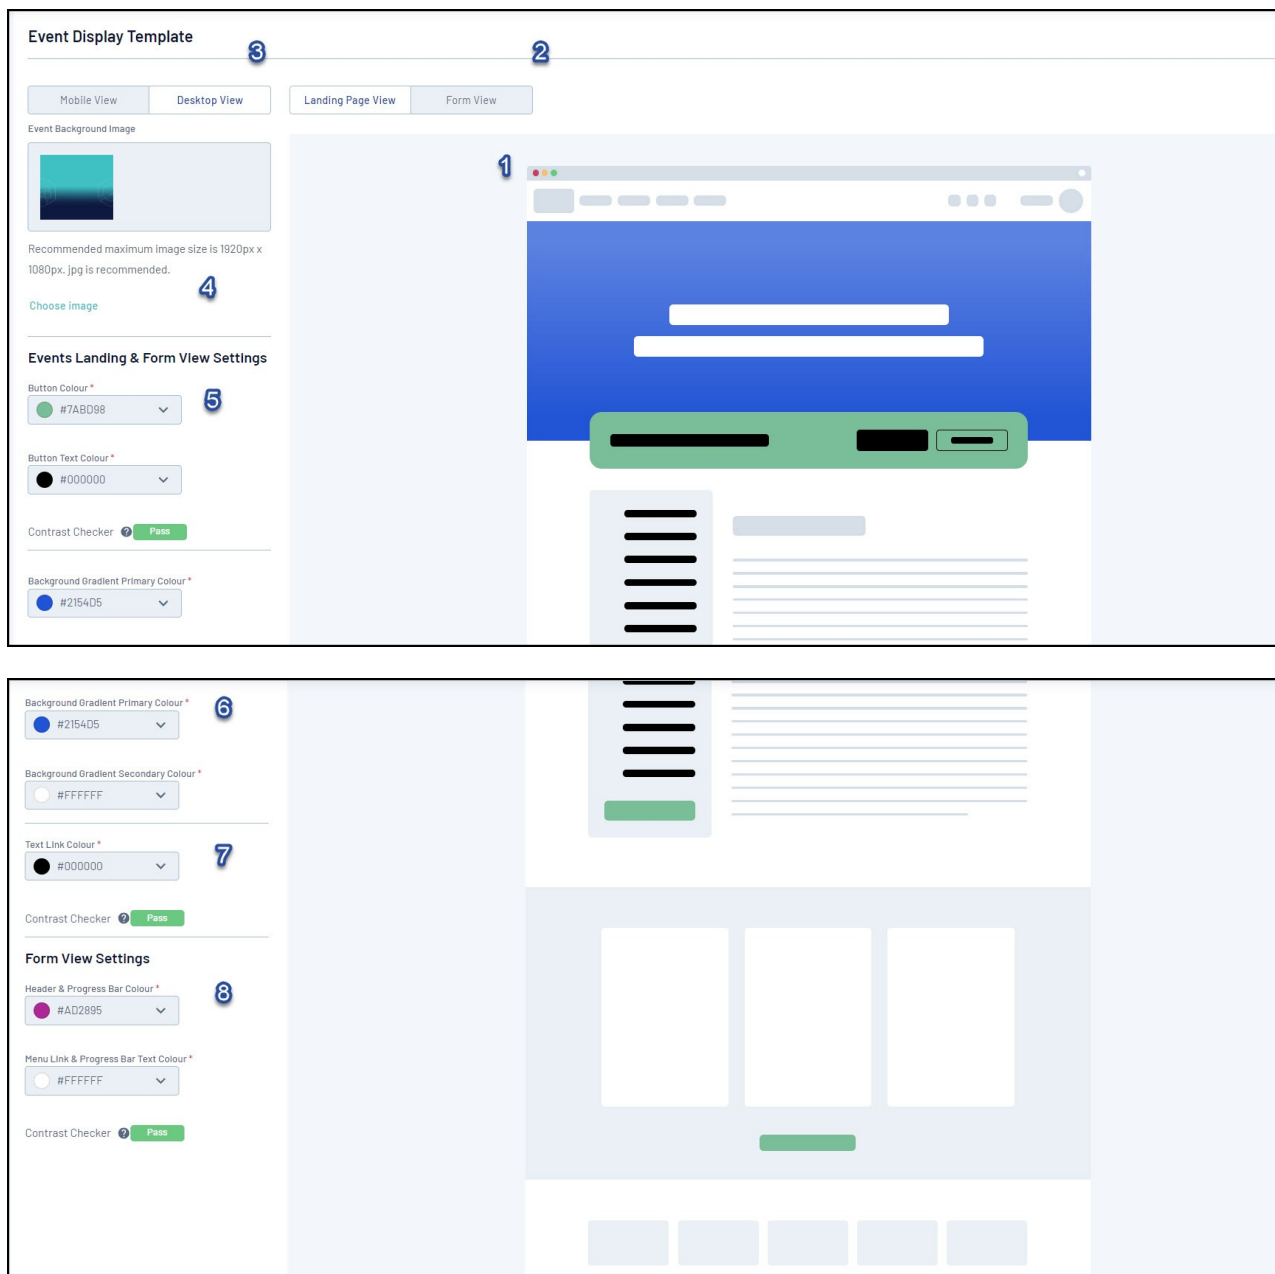

Click **SAVE** to finalise and generate your Event Landing Page and Registration Form

Event Display Template

The **Event Display Template** tab provides significant flexibility in the way you want to present the front-end version of your event pages, with features including:

1. **Preview Panel:** Allows you to preview any colour changes you make on the template.
2. **Event/Landing Page View:** Allows you to toggle the Preview Panel to show the Landing Page design or Event Form design.
3. **Desktop/Mobile View:** Allows you to toggle the format of the Preview Panel to display either desktop view or mobile responsive view.
4. **Background Image:** Allows you to add a custom Background Image.
5. **Button Colours:** Allows you to customise the colour of buttons and button text.
6. **Background Gradients:** Allows you to further customise your Background Image by applying gradient colours.
7. **Text Link Colour:** Allows you to customise the colour of text hyperlinks.
8. **Form View Settings:** Allows you to customise the colour of your Progress Bar and Progress Bar Text.

You will also notice that there is a Contrast Checker when applying your colour scheme. This assists you in setting colours that contrast enough so as to allow text to be seen clearly against their background containers.

Accessing your Event Landing Page

Once you're happy with your event setup, you can open your Event Landing page using the **VIEW EVENT** button at the top of the page.
