2. Select the **PROMO CODES** tab

From this tab, you will be able to view and edit any Promo Codes that have been created.

3. Click **EDIT** on the Unique Promo Code you want to update

You will see the following three tabs:

Details

The **Details** tab will allow you to edit the description, product type, the amount of the promo code, the date availability, the usage limits, the status and format of the Promo Code
