

Dashboard: Appearance

Last Modified on 27/09/2022 12:34 pm AEST

Under the appearance menu admins have the ability to set up the colours and display of their website.

SITE TITLE

This is the title of the website that will appear when searching via a search engine within a web browser as well as appear as the tab name.

Site title

Your site title will appear in the top of the web browser or tab

LOGO

This is the logo that will appear in the top left hand corner of the website along the header.

Recommended max width is 300px.

Logo

Your logo appears in the top left of the website.

Recommended max width is 300px.

COLOURS

Here you set the background, button and text colours that will appear throughout your website. It will be best to make sure the colours you use contrast each other to give your website the best display. You can use a [contrast checker](#) to check the colours you want to use will work with each other.

Background Colour

This colour will be used as the background to customise your website.

Text Colour

This colour will be used for text that appears on your custom background colour. Hint: make sure they contrast.

Button Colour

This colour will be used for links and buttons.

Button Text

This colour will be used for button text.

CUSTOM CSS

If your organisation has it's own colours, customisations etc it wishes to have you can input this custom CSS here.

Custom CSS

Need to do a bit more customisation? Add you css here.

```
#section-home-video-panel .banner-content {
  background-color: rgba(0, 0, 0, 0);
}
#footer #global-footer {
  background: #af4afe;
}
#footer {background-color: #af4afe;}

#footer #footer-main .container .footer-menu .menu li a, #footer #footer-main .container .footer-content .menu li a {
  color: #ffffff;
```
