

Successfully integrate ECAL into my GameDay website

Last Modified on 19/08/2024 4:02 pm AEST

Note: This process only applies to organisation that use GameDay Events AND have a Stack Commerce Website

As a GameDay Events user who also has a Stack Commerce Website, you can use the integrated ECAL functionality available in your GameDay Events database to integrate a calendar widget into your website as a way of publishing your event schedule online.

To integrate ECAL into your Stack Commerce Website:

1. Log into your GameDay database and click **Events** > **MANAGE EVENTS** in the lefthand menu

3. Click **VIEW** next to the relevant widget you wish to use

4. On the **WEBSITE** tab, you can copy the codes to insert into your website. The information you need can be found in the second box of this display.

You will need to copy and note down the following:

API Key

2. Then, Copy & Paste this HTML code wherever you would like the Event Display to appear on the website

Ð

<div class='ecal-sync-widget-event' data-ecalanikey=CwTilldx82yPZbAu0ESailg7Vygl0z07teLW0000mmHk82tel

Widget ID

2. Then, Copy & Paste this HTML code wherever you would like the Event Display to appear on the website

<div class='ecal-sync-widget-event' data-ecalapikey='CwTiUdx82vPZhAu0FSailq7Vvql0zQZlgLWVWmzMk6344cccd7' data-ecalwidget-id='6344cccda89f9f000e66654e' data-ecal-widget-type='carousel'></div>

Note: If you are using a third-party website, steps 1-4 will remain the same; however, when integrating into your external website, you will need to copy and paste the whole code from box 1 into the head of your website, and then copy and paste the whole code from box 2 into the page etc of where you want your events to display. For more information on this process, click here.

5. Login to your Stack Commerce Website and open the **SECTIONS** option
