Social Media Feed

Last Modified on 19/08/2024 3:33 pm AEST

NOTE: This add on has to be enabled for your organisation. To check if this is available for your website, check [Your Website Features](#).

This section relies on your subscription to the [Juicer](#) platform.

The Social Feed allows an organisation to link their Instagram, X (Twitter) and/or Facebook accounts to display recent posts - this section will display about 3-4 recent social media posts.

1. Make note of [your social media Juicer shortcode](#).
2. Click on the **SECTIONS** tab and click on **SOCIAL FEED**.

Sections

[help](#)

These sections will be used to build your home page. They can also be added to sub pages on your website.

3. Make sure this panel is set to show on your website (if not already set to show).
4. Set an order for this panel and add a background colour or image for this section.

Show Panel Show or hide this panel <input type="checkbox"/> Show	Panel Order 1 = top of page <input type="text" value="5"/>	Background Colour Set a custom colour for this section <input type="button" value="Select Color"/>	Background Image Set a background image for this section, will override background colour. No image selected <input type="button" value="Add Image"/>
---	---	---	--

5. Click **ADD SOCIAL ACCOUNT**.

Social Content

Select your social media account and enter your handle (do not include the '@')

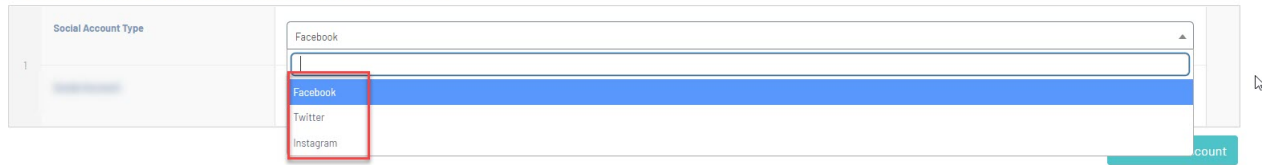

6. Select the relevant social media feed.

If you have a unique code for each social media feed (e.g facebook, instagram, twitter) then add a menu for each type, however if all social media feeds are in the one or you are just using one social feed then just add the one.

Social Content

Select your social media account and enter your handle (do not include the '@')

The screenshot shows a form with a table-like structure. The first row is for 'Social Account Type' and is numbered '1'. A dropdown menu is open, showing three options: 'Facebook', 'Twitter', and 'Instagram'. The 'Facebook' option is highlighted in blue. A red box highlights the dropdown menu. To the right of the dropdown is a 'count' button.

7. Input the Juicer shortcode for this social account.

Social Content

Select your social media account and enter your handle (do not include the '@')

The screenshot shows the same form as above, but now the 'Social Account Type' dropdown is set to 'Facebook'. Below it, the 'Social Account' input field contains the text 'basket' followed by a cursor and 'watu'.

8. Repeat for any other social feeds.

9. Once done, click PUBLISH in the top right hand corner of the website.

How do I remove a social media feed?

To remove a social media feed then hover over the last column of the menu and select REMOVE ROW > confirmation will display > click REMOVE.

Social Content

Select your social media account and enter your handle (do not include the '@')

The screenshot shows the form with 'Social Account Type' set to 'Facebook' and the 'Social Account' field empty. A red box highlights a 'Remove row' button in the bottom right corner, which is a small icon with a red circle and a white 'X' over it.

If you want to disable the social feed panel all together, just click the SHOW button, which will change the panel to be hidden, then click PUBLISH.
