Once you are logged into your website, scroll down to the Header section. Select this section to expand it.

Before proceeding, ensure you have setup at least one menu. For help with setting up menus click [here](#).

Navigation Menu

Select which menu will display in your main website header by choosing it from the drop-down menu under **Navigation Menu**. This menu will display on all pages of your website. Standard practice is for this to be the Main Menu.

Activate Secondary Menu

To display a second menu underneath your main website header, toggle the switch to Yes. This will activate a smaller secondary menu under the main navigation menu. We often use this for Shops. Note this is currently set to the right side of the page to symbolise a separate 'area' of the site.

Secondary Menu

Select the drop-down box to choose which menu you would like to display for your secondary menu.

Header Partner Link

If you would like to add a second logo to your website header to take users to another

website link, insert the link to the website here.

Header Partner Image

If you would like to display a second logo on your website header such as a sponsor logo, click the Add Image button.

This will display on the right-hand side of your website header. This image should be 100px wide by 100px high.

Major Partner Text

You have the option to place some text such as 'Major Sponsor' underneath your Header Partner Image
