

GAMEDAY

Match Centre

Last Modified on 19/08/2024 1:33 pm AEST

NOTE: this page panel can only be used if your organisation currently uses our GameDay Passport competition management system.

If you wish to get more information around the competition management please email our [sales team](#).

If you use another competition management platform you will just need to create a page that links to your competition management website or utilise the Tiles or CTA sections.

The Match Centre section allows your organisation to link the fixtures for all competitions from your Passport website into a streamlined widget that displays on your homepage.

1. Under the **SECTIONS** header click on the **MATCH CENTRE** tab.

Sections

[help](#)

These sections will be used to build your home page. They can also be added to sub pages on your website.

2. If this panel is not set to show on your website yet, then make sure you click the button to **SHOW this widget** on your website and **adjust the order** of where you would like this to sit within your website home page.

3. Click **ADD COMPETITION**.

You have two ways you can set this match centre up:

- Have one tab that links to all your competitions via a drop down list.
- Have multiple tabs that link to specific fixtures for specific competitions.

ONE MAIN TAB

NOTE: If you have more than 6 competitions running at the one time we recommend you use this set up, as any more than 6 can make the website speed slower.

1. Input the name for the tab within COMPETITION NAME.

As all your comps will be in this main tab you can call it your association name or something else (e.g fixtures and results).

To get the relevant IDs needed for this match centre, [click here](#).

2. Input the COMPETITION ID into the relevant field.

Although you are putting only one competition ID in here, it will display the other competitions via a drop down list within the widget itself.

3. Input the COMPETITION SEASON ID into the relevant field.

The screenshot shows a form titled "Competition" with three input fields. The first field is labeled "Competition Name" and contains the text "Fixtures and Results". The second field is labeled "SportsTD Competition ID" and contains the text "0-12060-0-591540-0". The third field is labeled "SportsTD Competition Season ID" and contains the text "6019693".

4. The COMPETITION LADDER COLUMNS are defaulted, however you can choose what columns display if you wish.

5. The SEASON is also defaulted, as most associations use normal seasons, however change this if you are running pool comps or finals.

6. Add stats into the STAT CENTRE if needed.

Stat information can be [accessed here](#).

How to set up the stat centre can be [accessed here](#).

The screenshot shows a form titled "SportsTD Competition Ladder Columns" with three sections. The first section is labeled "SportsTD Competition Ladder Columns" and contains a text input field with the value "1,2,3,4,5". The second section is labeled "SportsTD Season" and contains four radio button options: "Normal Season" (which is selected), "Pool 1", "Pool 2", and "Finals". The third section is labeled "Stat Centre" and contains an "Add Stat" button.

7. Once done, click UPDATE at the top of the webpage.

HOW THIS DISPLAYS ON WEBSITE

The match centre will display the competition you added to the widget, however the rest of the competitions can be accessed via clicking on the drop down list.
