1. Follow the instructions provided in the [MATCH CENTRE set up](#) to get your competitions set up first.
2. Make sure you have noted down the statistics IDs for each of your competitions which can be [found here](#).
3. Under the STATS CENTRE section within your match centre, click ADD STATS.

If you want more than one stat listed for the competition, you will have to repeat this process.

The screenshot shows a form titled 'Competition' with the following fields and options:

SportsTG Season	<input checked="" type="radio"/> Normal Season <input type="radio"/> Pool 1 <input type="radio"/> Pool 2 <input type="radio"/> Finals

5. Input the STATS COMPETITION ID for the relevant statistic- this will match that of the SPORTSTG COMPETITION ID for the competition.
6. Input the COMPETITION STAT name.
7. Select whether you want the club name to be listed for the person or the team name - most use the team name.
