Call To Actions (CTA's) are text or image boxes that allow you to display links, texts and images within a text box where you can link to specific pages, list specific information etc related to your website. Typically CTA's are used to encourage common or promotional actions to be taken by the user.

Eg - CTA's can be links to online shops, more information, links to photos and videos, links to external websites etc.

**CTA tiles display in rows of four. A row containing less than four tiles will be centre aligned.**
