## Events

Last Modified on 19/08/2024 4:05 pm AEST

**NOTE: This add on has to be enabled for your organisation. To check if this is available for your website, check Your Website Features.**

The Events tab makes use of a WordPress plugin to deliver Events. There is also an option to use our GameDay Events platform, and eCal to have event data fed to your website.

1. Under the **SECTIONS** header click on the **EVENTS** tab.

**Sections**

[help](#)

These sections will be used to build your home page. They can also be added to sub pages on your website.

Banner Tiles/Counter News Match Centre Social Feed Video Feed Counter GameDay Events **Events** CTA Partners Additional Partners Custom Content

**Overview** [help](#)

This section uses events to be created using Events Calendar

2. If this panel is not set to show on your website yet, then make sure you **click the button to SHOW** this widget on your website and **adjust the order** of where you would like this to sit within your website.

3. You can also add a specific background colour for this panel or even an image.
