What is a Member Type?

A **Member Type** is a custom group that you can create as an administrator for members to register into. This allows you to funnel your member registrations into groups that are relevant to your sport and organisation, and define the terminology of those groups.

Examples of common Member Types are Players/Athletes, Coaches, Volunteers, Committee Members, Umpires/Referees and Officials.

By creating custom Member Types, you can unlock a number of different customisation options including:

- The ability to add Member Types to your Membership or Event Forms as selectable options

Basic Settings

Title of Form (displayed publicly) *

Internal Form Name *

Member Types *

Which Member type(s) can register via this form?

	Athlete	Visible
	Volunteer	Visible
	Trial Member	Visible
	Student	Visible

Member Types List

To access your **Member Types** list:

1. Open the **My Organisation** menu, then click **SETTINGS**

2. Navigate to the Member Types tab:

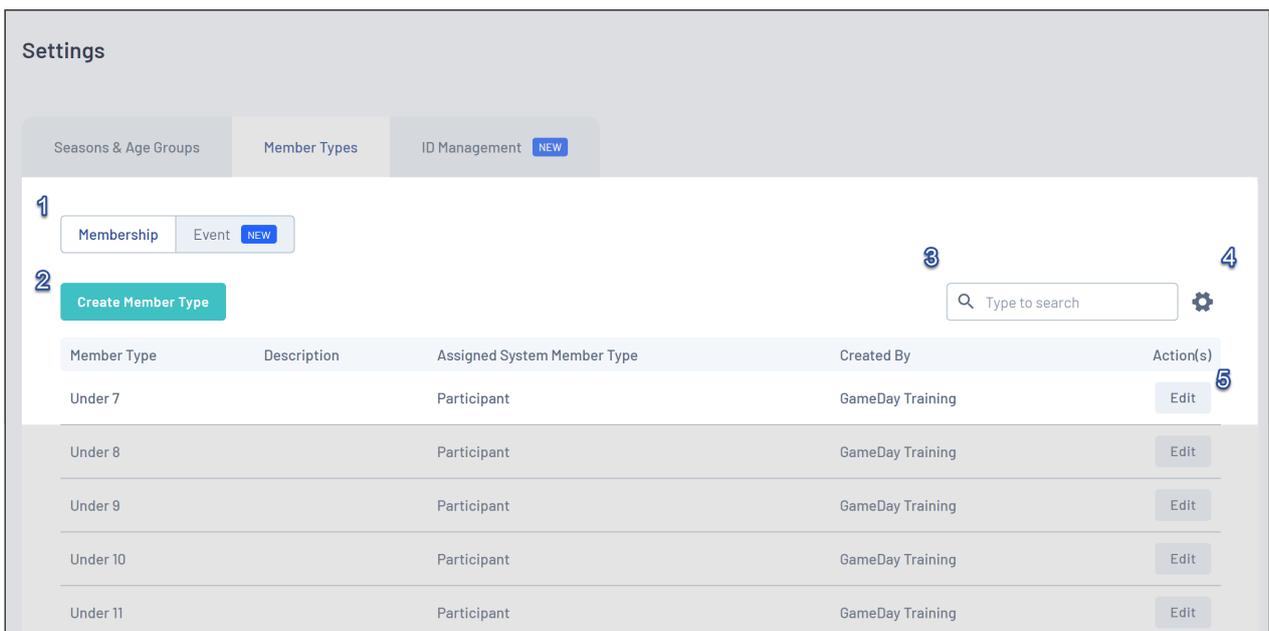

Your **Member Types List** will show you a list of any existing Member Types you have created, including:

- **Member Type Name**
- **Member Type Description**
- **Assigned System Member Type**
- **Created By**

Page Actions

On the **Member Types** page, you have access to a number of actions and customisation options, including:

1. Membership/Event Member Type toggle: Switch between the Membership or

Event Member Types lists and related functionality

2. Create button: Create a new Member Type

3. Search: Search for existing Member Types by name

4. List Table Settings: Define which fields display in the columns of the list table

5. Edit: Edit existing Member Types

For more information on processes relevant to **Member Types**, please refer to the **Related Articles** section of this article.
