How do I generate a QR Code for my Event?

Last Modified on 15/01/2024 10:46 am AEDT

With GameDay's QR Code generator, administrators can download a QR Code directly from GameDay to provide to event entrants as a link to a specific Event Form or its Landing Page.

This is designed to give members a quick and easy way to access an Event Form or Landing Page through their mobile device and offers the flexibility to scan the QR Code as a printed copy, included in communications, or directly through GameDay.

Generating a QR Code for Event Registration Forms

1. In the left-hand menu, open the **Events** menu and click **MANAGE EVENTS**.

2. Find the Event for which you want to generate a QR Code, then click the **Actions Arrow** > **GENERATE REGISTRATION QR CODE**.
