GameDay's **Finances** module provides the ability to access, view and manage the Orders that have been processed through your organisation's GameDay database, as well the Settlements that have been distributed to your nominated bank account through GameDay.

Through the **Financial Settings** available in this module, you can add your nominated bank account for collection of settlements, view your GameDay processing fees, and see your available payment gateways, payment methods and voucher integrations.

To access the Finances menu, click the **FINANCES** option in the left-hand menu

The **Finances** module includes the below features:

Orders

Allows you to access, view and manage the Orders that have been processed through your organisation's GameDay database, including communicating with order contacts,

exporting orders, viewing order details, processing refunds or cancellations and more.
