Overview

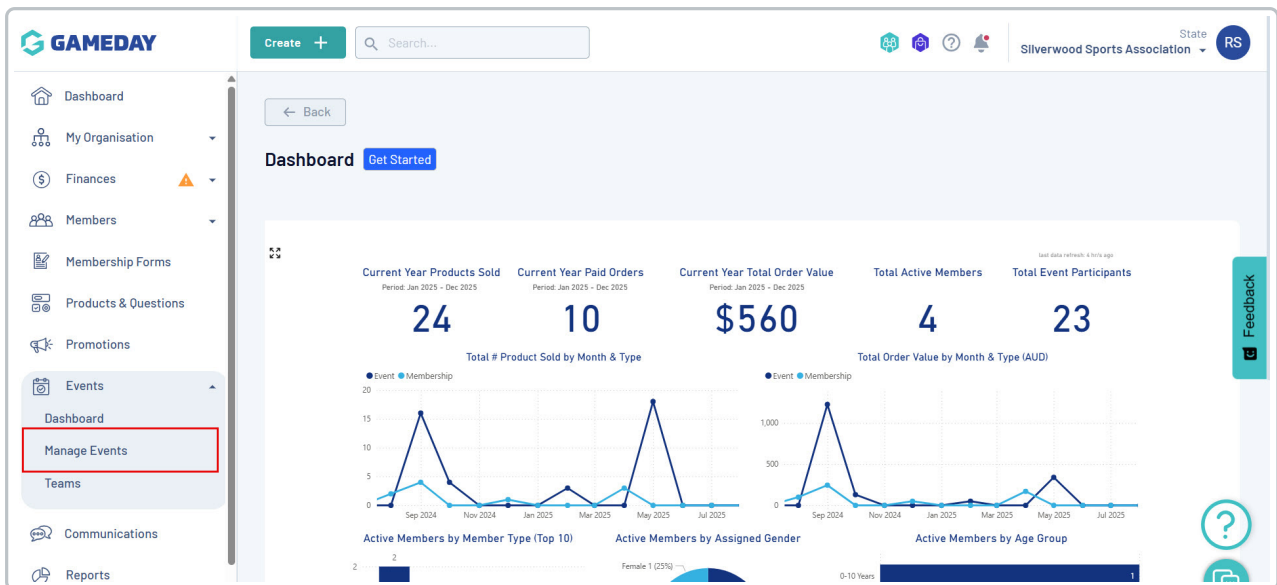

GameDay's **Events** module provides an end-to-end event management solution which integrates with various other elements of your GameDay database, such as memberships, products, reports, promotions and finances.

Through the Events module, you can create a comprehensive event journey for your entrants including front end landing pages and registration forms, payment processing, back end entrant management, communication, reporting and much more.

GameDay caters to various different type of events, including:

- **Ticketed Events:** An event in which each entrant receives a ticket that can be presented upon entry.
- **Event Entry Events:** An event in which each entrant can simply enter into an event, or select multiple **Sub-Events** to register into.
- **Team Events:** An event in which a team manager can register their team to participate in the event, and subsequently invite teammates to register as team entrants.

To access the Events module, click **Events** > **MANAGE EVENTS** in the left-hand menu.

Public Event Pages

Each event comes with an in-built Landing Page and Registration Form that you can customise and publish to allow entrants to see event details, prices, key contacts and to register and pay online.

Event Landing Pages

The screenshot displays a web page for the 'Silverwood Sports Association Athletics Carnival'. The header includes a logo, 'About', and 'Products' links. The main banner features the event title and a 'Register Now' button. A sidebar on the left lists contact information: Event Website, phone number (+61400100200), email (support@mygameday.app), time (12:00 AM), location (GameDay HQ, 165 Cremorne Street, Cremorne, Victoria, Australia, 3121), and price range (\$20.00 - \$50.00). The 'About The Event' section welcomes visitors and lists participating events: 100m, 400m, 1600m, 400m Hurdles, Long Jump, High Jump, Shotput, and Discus. A footer section titled 'Choose an Event Product' shows two price options: \$30.00 and \$20.00.

Page Actions

On the Events List, you can apply various other actions and display settings, including:

The screenshot shows the 'Events' page of the Silverwood Sports Association system. The interface includes a top navigation bar with a 'Create +' button and a search bar. Below this is a tabbed menu with 'Events' selected. The main content area displays a list of events with columns for Event Name, Event Type, Event Info, Event Category, Event Date(s), Venue, and # Products. Numbered callouts indicate the following features:

- 1. 'Create Event' button
- 2. 'Create Event from Template' button
- 3. Filter buttons for Status (Active), Event Type, and Event Category
- 4. Search bar for individual events
- 5. List Table Settings icon (gear)
- 6. Actions menu (three dots) for each event row

The screenshot shows the 'Events' management interface. At the top, there are tabs for 'Events', 'Event Templates', 'Event Participant ID Management', 'Event Display Template', and 'ECAL Widgets'. Below the tabs, there are buttons for 'Create Event' and 'Create Event from Template', a search bar, and filters for 'Status: Active', 'Event Type', and 'Event Category'. A 'Clear All' button is also present. The main table lists events with columns: Event Name, Event Type, Event Info, Event Category, Event Date(s), Venue, # Products, Status, and Registrat. The first event is 'Athletics Carnival' with status 'Active' and 'Live'. A dropdown menu is open for the first event, showing actions: Edit, View, Open Event URL, Copy Event URL, Generate Event QR Code, Open Registration Form URL, Copy Registration Form URL, Generate Registration QR Code, and Export Participant Data to CSV. A red arrow points to the dropdown menu. At the bottom, there is a 'Show 5' dropdown and a pagination bar showing 'Showing 1-5 of 5'.
