

GAMEDAY

Tiles

Last Modified on 19/08/2024 12:31 pm AEST

The Tiles section gives you the ability to create call to action Tiles.

Navigate to the Tiles tab and click the HIDE/SHOW button.

The screenshot shows the GAMEDAY configuration interface for the Tiles section. At the top, there is a navigation bar with tabs for Banner, Tiles (selected), Countdown, News, Match Centre, PlayHQ Ladder, Social Feed, Video Feed, Counter, GameDay Events, Events, CTA, Partners, and Additional Partners. Below the navigation bar is a 'Custom Content' section with an 'Overview' panel. The Overview panel contains the text: 'This section can be used to display tiles on your homepage.' To the right of the Overview panel are controls for 'Show Section' (a 'Show' button and a toggle), 'Section Order (1-99)' (a dropdown menu set to '2'), and 'Background Type' (radio buttons for 'colour' and 'image'). Below these are three columns for 'Background Colour' (a 'Select Color' button), 'Background Image' (a text input, 'No image selected', and an 'Add Image' button), and 'Heading for the section' (a text input containing 'Tiles'). Below the Overview panel is a 'Tiles' section with a 'hide' button and the text: 'The tiles will display the text and button in the homepage. You can display up to three tiles'. At the bottom, there is a configuration table for the tiles:

CTA Image	
CTA Heading	Heading 1
CTA Text	This is a call to action section. This is a call to action section. This is a call to action section. This is a call to action section.
Button Text	Learn more

Input the relevant Tiles you wish to use. You can display up to three Tiles here.
