What is the Get Active Kids Voucher Program?

On 1 November 2020, the Victorian Government announced the Get Active Kids Voucher Program. This Victorian-first initiative delivers vouchers to eligible Victorian children and young people, assisting families with the costs of participation in sport and active recreation activities.

The Program encourages children to re-engage or participate for the first time in new activities by reducing the cost of participation, which can be a significant barrier.

The Program is delivered in a targeted way to support families facing the greatest cost pressures to participation in sport and active recreation.

Setting up your Get Active Kids Vouchers

If you wish to allow your registrants to redeem their vouchers through GameDay, you will need to first register as an activity provider. More information for providers can be found [here](#).

FAQs

What is the format of valid Get Active Kids vouchers?

Valid voucher codes are made up of three key components, outlined in the example below:

G8-1625347-A34K

G8 = Get Active Kids Round 8 - this prefix denotes the current active round of voucher validations

1625347 = Provider Code - this 7-digit numeric code must match the provider code stored against the organisation that the member is registering to (ie Club)

A34K = Unique 4 character code (sequence = alpha-numeric-numeric-alpha)

I didn't use my voucher in the previous round. Can I still use it after the next round has commenced?

No, vouchers are generated with a new prefix for each round. For example, round 8 vouchers will begin with a G8 prefix, and the voucher validation system is designed to only accept vouchers that are valid for the current round.

What expenses can a voucher be used for?

Vouchers can only be used to cover the cost of membership and registration and must be used in one transaction.

Uniform and equipment items that are incorporated within the membership and registration fees can be claimed (for example, safety equipment, mouthguards).
